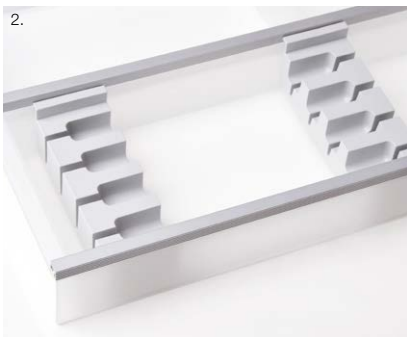
cuisio

reddot design award

Adds style to the drawer

An elegant and high-value insert system for drawers, inspiring by its material mix of translucent plastic trays and aluminium connecting profiles. Combining trays in different ways adapts cuisio to various drawer widths. Each tray can be individually equipped with adjustable dividers.



1. cuisio with spice-jar insert black translucent with aluminium profiles
2. Knife block and side end panel
3. cuisio universal including non-slip mat

cuisio drawer insert

- High-value material mix of translucent plastic and aluminium
- Variable combinations of trays and profiles
- Individual contents can be organised using adjustable dividers
- Lateral spacers ensure a perfect fit in the drawer
- Adaptable to any drawer type
- Suitibal for nominal depth 400-650 mm
- cuisio universal: One insert width for several drawer width. The compartments left and right to the insert provide space to store big items.

System design
