# connect

*Simple  
flexibility.*

- fits cabinets from 300 mm
- fits every drawer system
- assemble a chosen layout with simple connectors
- includes non-slip mat

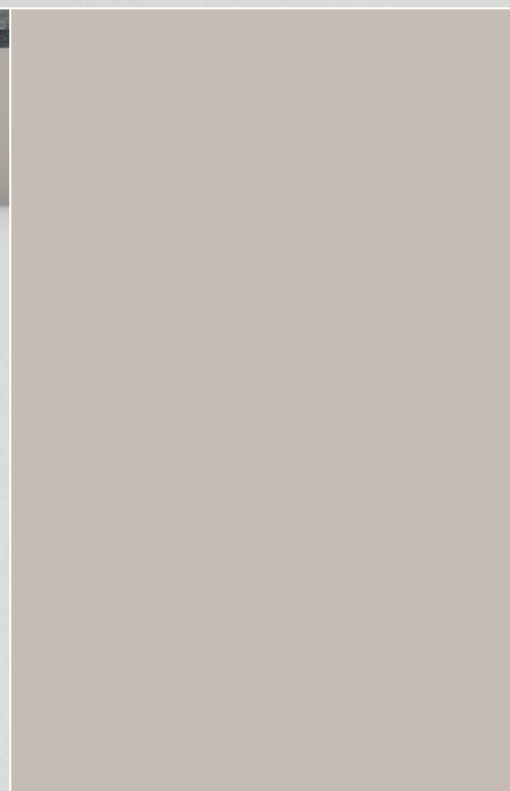

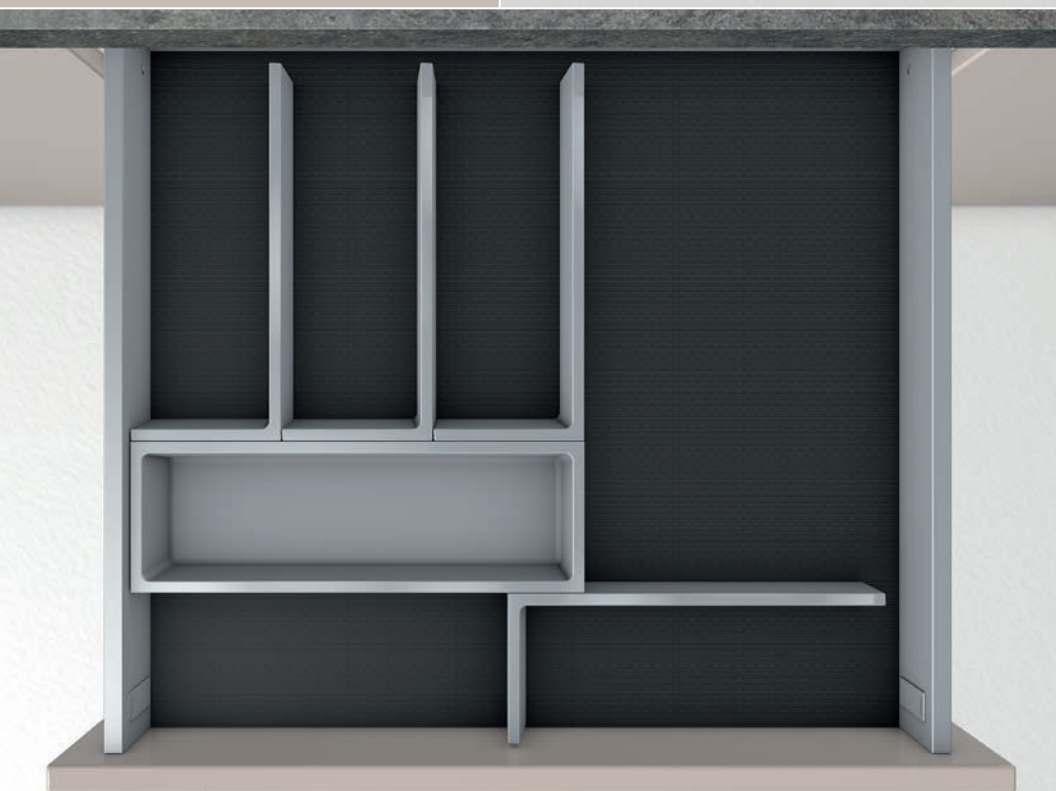

The **connect** knife block is an elegant and safe way to store high quality knives. The knives remain easily accessible with the blades protected.

The **connect** organiser frame adjusts and expands to offer numerous ways to store items.

**connect** elements fit together using simple connectors allowing a wide variety of layouts. **connect** is suitable for use in all drawer systems and in all widths and depths.

## connect

# *A new form of organising.*

*Unlimited by the drawer sides, but connected within itself. That is the new idea. Shaped elements that create order connect to each other in a highly flexible system, offering a flexible layout, stability and a 'feel' which immediately convinces.*

Thomas Ritt, Product Designer
