

Organisation in drawer with siphon cut-out

Whether cosmetics for daily use or utensils for occasional use - with banio everything is perfectly organised and easy to handle. The base module, which is variable in length and width, hides the siphon cut-out and offers adaptation options for different sized inserts.

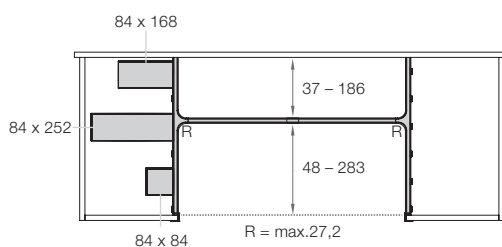

banio organisation system for sink cabinets

- Basic module set provides a perfect siphon cut-out and click-fits the containers
- Especially suitable for under sink cabinets
- Concealed fastening of the base module to the drawer rear panel
- Precise fitting thanks to the optimal adjustments left/right and front/back
- Extra large cut-outs easily created
- Flexible positioning of drawer inserts in 3 sizes
- Independent positioning of the bowls in the drawer, in pull-outs, in the mirrored cabinet, on shelves or with positioning strip on the wall

Finishes

- Colours inserts: White translucent, Graphite translucent
- Colours basic module, connector: White, Light grey, Dark grey

1. Connector
2. Positioning rail
